②Put the lamp body into the bracket Then fix the 4 screws on the side To complete the installation

③Press the switch light button by hand It will light up automatically when it gets dark

④Installation completion effect

★ Precautions

- Please pay attention to fixing lamps so as not to hurt people when the wind blows.
- In order not to affect the use of lights, clean up the dust and dirt on the surface of the solar panels every 3 months.
- Please check regularly whether the thread has come off or broken.
- Solar powered lamps contain batteries. Batteries are recyclables. Please do not litter.
