

SmartDrive CFL Product Ballast Compatibility List

Lamps: KT-LED94P-X-8XX-S

Check back often for updates. If the ballast you are looking for is not on this list, please contact us, and we will make every effort to evaluate compatibility.

Note: For ballasts known to be more than 5 years old, Keystone recommends replacing ballast before installing SmartDrive lamps.

 x No

- SmartDrive LED lamp compatibility is determined when the ballast turns on the LED lamp and the electrical characteristics of the LED lamp are stable and within designed operating specifications.
- Keystone SmartDrive LED lamp compatibility does not make any guarantees of electrical performance or lifetime for ballasts that are not manufactured by Keystone.
- Ballast compatibility testing is performed with specific date codes. Please contact Keystone for more information on date code of ballasts tested.
- All data subject to change.
- Compatibility is not valid with all date codes. Date codes from around 2003 known to be non-compatible. Extended compatibility testing recommended for all applications with this ballast. Contact Keystone for details.
