

Directional A Type
-----TS-LED/A19 Series

Product Description

This A19 LED directional bulb can illuminate lamp shades and fixture without creating sharp shadows. The A19 shaped bulb uses only 10 watts to produce 806 lumens, replacing a 60-watt incandescent. With a 3000/5000K color temperature, this bulb has a cool white glow with a 30,000 life hour rating.

Tube Features

- * Incandescent replacement
- * Comfortable diffused light & smooth dimming
- * Exceptional efficacy
- * Natural A-lamp look fits all applications
- * UL listed & FCC compliant

A19 Series

LED Bulb
