

Graymar Collection Integrated LED Chandelier Black

The Geometric “Graymar” pendant is unique because each of the squares can be rotated to your desired position. The frame and canopy are finished in a semi matte black. Each of the squares is illuminated by bright energy saving LED technology. This pendant almost looks like it is floating since it is suspended by thin aircraft type cables. Definitely a “cool” statement piece. Shown here is the 32” diameter version but also comes in a 28” or 20” version. Matching flushmount also available.
