

Based on the premise simplicity, Steven Sabados (S&C) wanted to create a simple beveled mirror with the added feature of LED technology. The “Lunar” Collection is just that. Behind its simple yet clean look, there are bright LEDs which when turned on by the “Smart Touch” switch, makes the mirror look like it is glowing on the wall. The “Smart Touch” dimmer switch allows the user to control the brightness or turn the light on/off on this beautiful mirror. This collection comes in 3 different sizes and shapes. This model is the oval version.
